

FIRE SUPPRESSION SYSTEM

Our engineers and technicians are proficient in delivering projects involving FSS solutions from concept to installation, commissioning, and maintenance.

Combining innovative technologies and creative engineering, we customize ventilation products to align with the fire protection requirements of each project.

Our FSS provides a simultaneous protection on 3 levels:

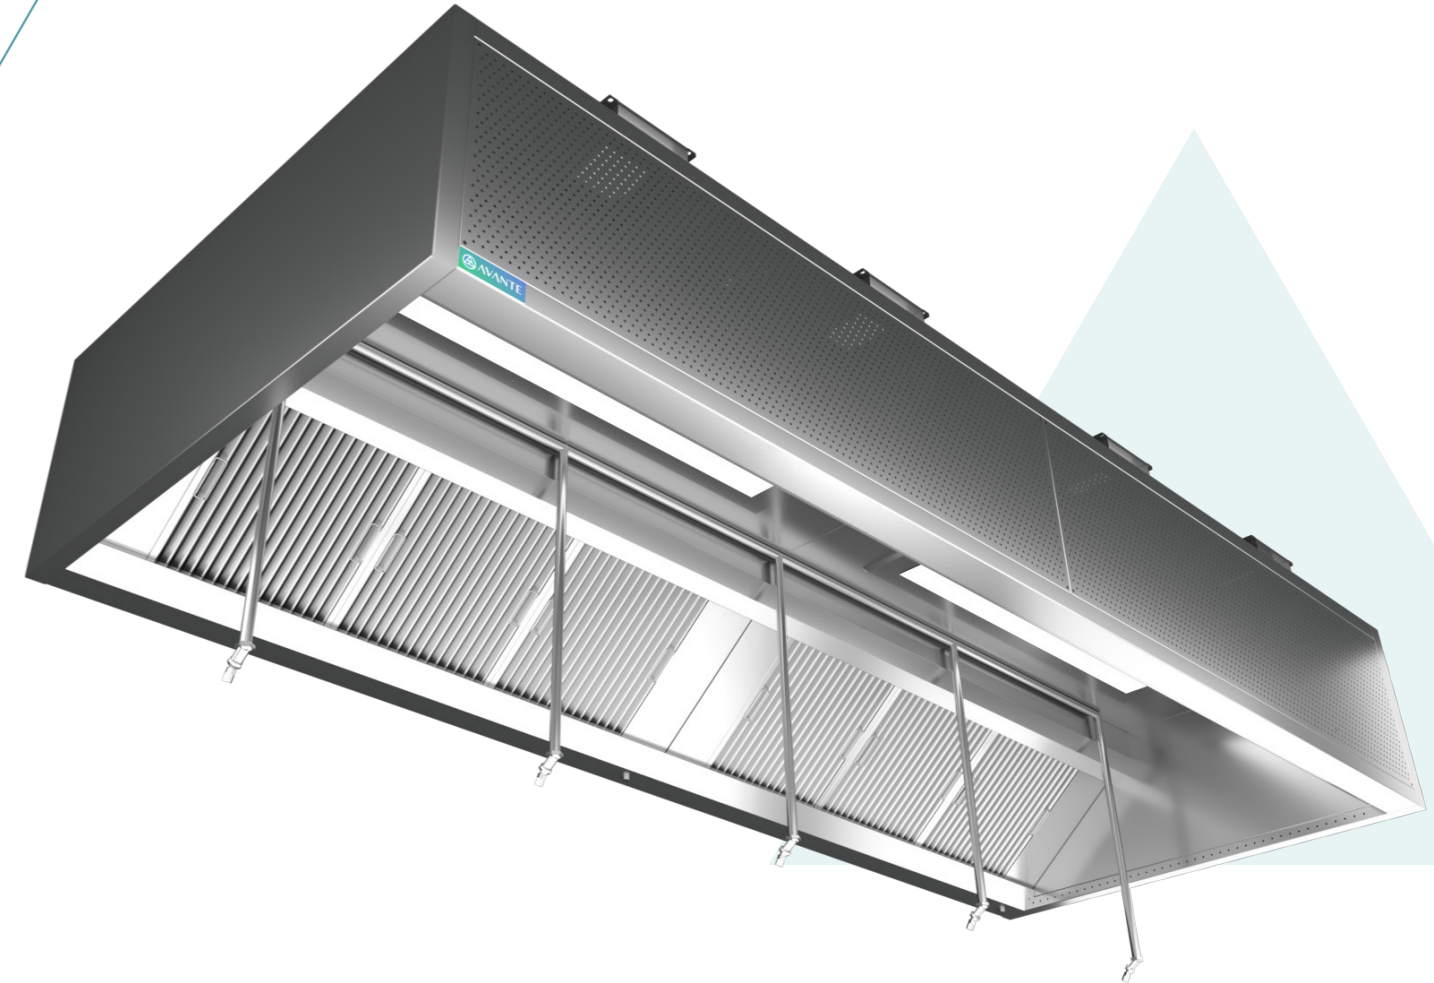

- Cooking equipment
- Extract Plenum
- Extraction duct

ACTIVATION

- Manual activation pull station
- Automatic-Mechanical actuation

FEATURES

-  24H/24H protection
-  Minimal downtime
-  Unobtrusive design: Flexible piping configuration
-  Overlapping design
-  eco-friendly

EXTINGUISHING AGENT

- Class K fire liquid fire extinguisher agent
- Stainless Steel body
- Capacity: 9ltrs, 12ltrs, 15ltrs, 18ltrs, 21ltrs, 24ltrs, 27ltrs, 30ltrs
- Low PH
- Food standards
