AVANTE-CD

DISHWASHER CONDENSATE HOOD

A Condensate hood is an extract canopy designed to effectively condense and extract the steam and vapors generated by dishwashers and cooking pots.

APPLICATION

- Avante-CD should be suitable for application where grease extraction is not required

CUSTOMIZATION

- Wall mounted
- Island mounted
- 600mm height, 1350mm depth (min), length varies according to layout requirements

MAINTENANCE

- Condensate collection channel and drained via an integrated drain cock

OPTIONS

- LED dimmable spotlights
- Hood cladding / powder coating

DISHWASHER CONDENSATE HOOD

LIGHTING

- LED dimmable spotlights
- Hood cladding / powder coating

CONSTRUCTION

- Fully made of 1mm SS AISI 304 brush finish
- Welded construction
- Modular construction
- Baffle plates installed at an angle of 60° for effective condensation

TECHNICAL SPECIFICATIONS

MATERIAL:

- SS AISI 304 brush finish
- Thickness: 1mm

POWER SUPPLY:

- 120/220 - 240 V
- 50 - 60 Hz

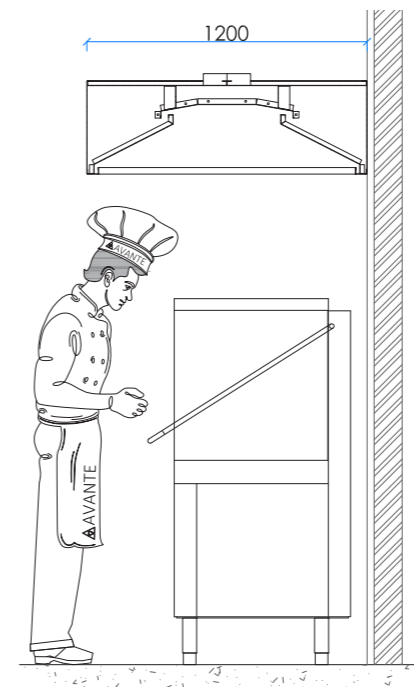

LIGHTING:

- LED lights if required
- Rated IP65
- 500 lux on the working surface
- Low consumption
- Heat & vapor resistance
- Long-lasting

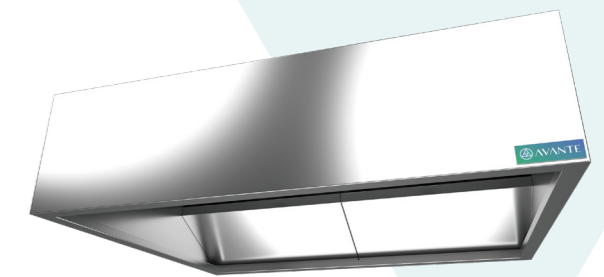

DIMENSIONS:

- 500 mm (Height)
- 1200 mm (Depth min)
- Length: customized
